

HERMES

Data Exchange Platform

Duration: 33 Months

Starting Date: 1 December 2021

Completion Date: 31 August 2024

Total Budget: 2,499,780.00 €
(100% EU Funded)

THE CONCEPT

HERMES is a military-grade, enterprise system composed of different software components that can be deployed in various parts of an organisation across various security domains.

It can be used by various experts to gather, curate and distribute cybersecurity information to several systems, including UGVs.

HERMES uses an innovative approach addressing the main challenges affecting:

- Automation and autonomy in cybersecurity
- Secured information sharing, collaboration, and outsourcing

MAIN OBJECTIVE

Fully design and develop the HERMES Data Exchange Platform (DXP).

PROJECT COORDINATED BY

CONSORTIUM

SUBCONTRACTOR

This project has received funding from the European Defence Industrial Development Programme (EDIDP) under grant agreement No "EDIDP-SME-2020-099-HERMES".
